

EUROTERMINAL

Euro Terminal - natural Baltic hub for cargo traffic to and from Central and Eastern Europe

Euro Terminal has Free Trade Zone status

Company

Euro Terminal is a multipurpose terminal with dedicated handling and storage facilities for a wide range of cargo. There are two main dock basins for handling of vessels.

Apart from refrigerated cargo, which is our specialization, we also developed into a hub for forest products, breakbulk goods and project cargo.

With its strategic location near the mouth of the River Odra, our terminal is perfectly placed for multimodal operations between road, rail, sea and inland waterway transport.

Infrastructure:

- Terminal has two dock basins with six piers
- 3 cold stores
- 27.000 m² of warehousing
- 300.000 m² of paved open air storage
- Almost 9.000 m of rail sidings

Euro Terminal has a total area of 53 ha, including 46 ha within Free Trade Zone.

Storage and stevedoring services

Frozen products

We specialize in handling and storage of frozen fish products and fruits.

We have three cold stores with refrigerated storage for 24.000 pallets in mobile racks and 6.500 in bulk.
The temperature range is -30°C to $+13.8^{\circ}\text{C}$.

Woodpulp and forest products

We are dedicated terminal for handling of woodpulp and forest products. We have a modern warehouse space with a total area of 27.000 m².

Woodpulp and hardboards are handle in all possible relations with using professional equipment.

Breakbulk and steel products

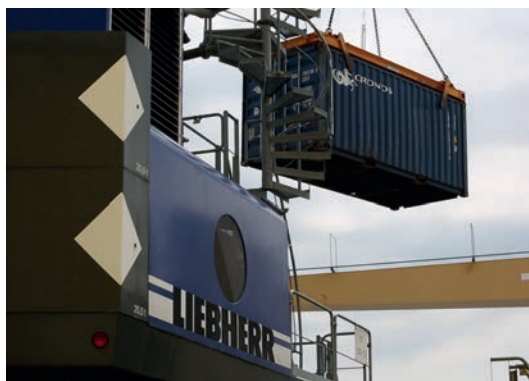

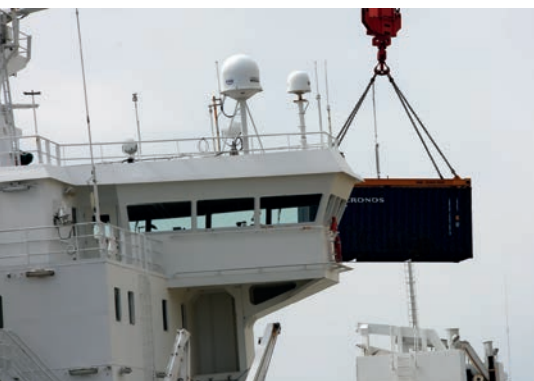

Our terminal handles and stores also aluminium, steel products, building materials, electrode paste.

Storage and stevedoring services

Containers

The terminal is equipped to handle containers and we also carry out stuffing and stripping of containers.

Oversized cargo and project cargo

For handling operation we use modern mobile cranes Liebherr. Experience of our personnel allows for efficient and safe handling of oversized steel constructions, or **particularly demanding windmill parts**, which became speciality of our company.

Furthermore we operate special cargo, such as boats, engines, constructions and other project cargo.

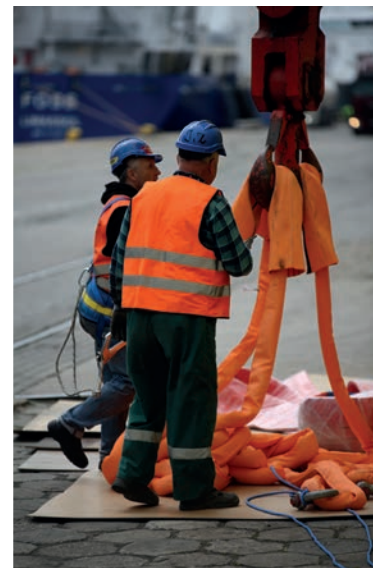

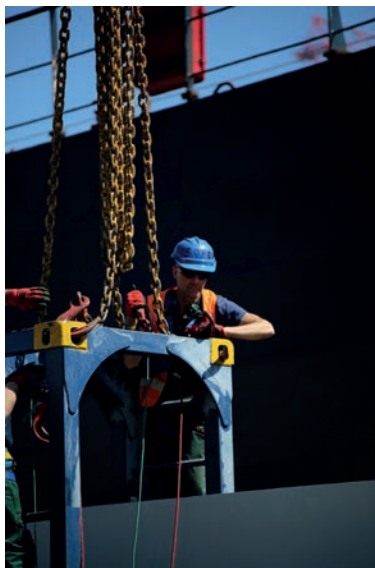

Additional services

To meet requirements of our customers we also provide additional services, such as: sorting, labelling, foil wrapping, pelletizing, stevedoring, lashing, strapping, completing cargoes, stuffing and stripping of containers.

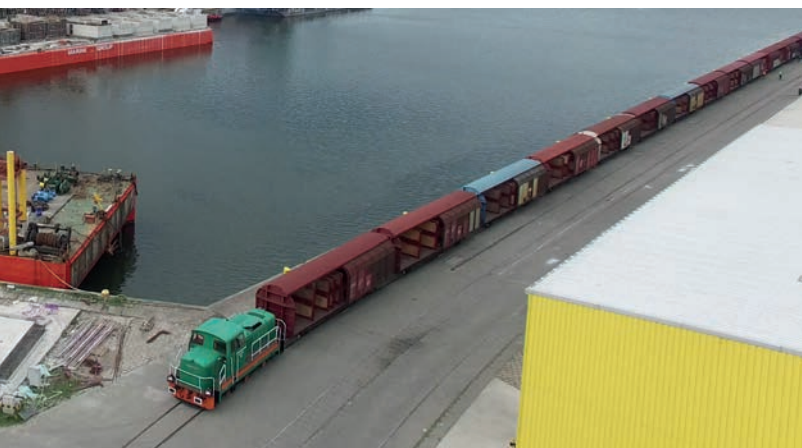

Dangerous cargo

In order to ensure safe labour conditions of employees in regard to handling operations and storage of dangerous cargo "The instruction of handling operations and storage of dangerous and contaminative cargoes for Euro Terminal Co. Ltd. in „Świnoujście” was elaborated and implemented.

Rail freight

Due to the fact of having its own railway siding, locomotives and location of railway tracks directly on the pier and next to warehouse space, handling operations of waggons are big asset of the terminal. Possible are direct handling operation in relation waggon – vessel, or indirect relation using warehouse space or open air storage.

Lay-up of vessels

We also offer lay-up of vessels at our piers.

Offer

Lease of properties

On the area of Euro Terminal there is available land, workshop, production, warehouse and office space for lease.

Services of customs and forwarding agencies

There are companies on the terminal offering land or sea forwarding services and customs agencies. Within our terminal it is also branch of Customs Office.

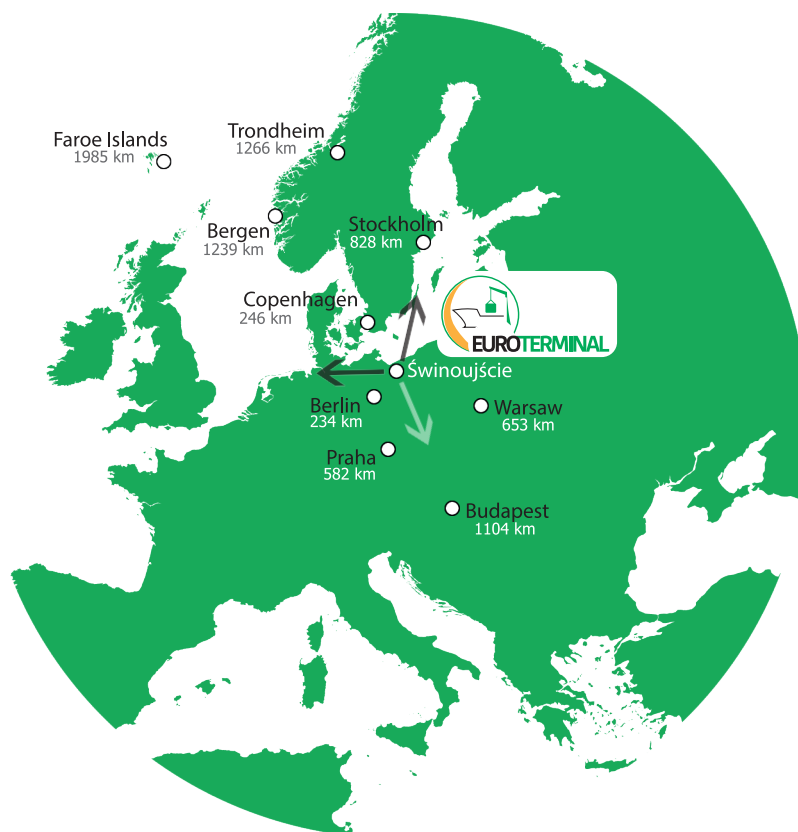

Shipping lines

Shipping line Nor Lines. The line has vessels designed for transport of frozen palletized cargo, containers, oversized constructions and cargoes. The vessels call at about 60 ports between Świnoujście and Tromsø along Norwegian coast.

Shipping line Scan Baltic Service. Vessel type side door is designed for transport of any unified goods, such as paper, forest products, chemical products, building materials, palletized breakbulk, steel products, aluminium etc., and any type of constructions, oversized elements and containers. It connects our terminal with Scandinavian ports.

We operate 24 hours a day, all year around

Our mission is to provide the most optimal and professional stevedoring services in the region
